Dear Papa,-

I love papa, I want to say Lovingly, Sammie.

We went for a walk with the Biggers and I slid on the ice and didn't tumble.

The Phillips have a little baby that came yesterday. We have a little card that tells us. His name is James Potter. Everybody has a Charles and a Jamie.

We have a little rose and we put it in the window every day.

I hope Jamie and Charles had a nice time. I hope they had a football. Thank you for our toys, The Lovingly,  
other two packages Sammie.

Dear Papa,

The city's name is Peterborough. We leave  
the house every morning. We have two letters.  
We like to get letters from you. I can find  
a book we got from some one this morning. We run  
up every room. We are making a train. We feel  
the best in the world. We are soon we had the  
dates. We are going to get some little birds.  
I like my little station. We took our Tommy  
Stickers to bed last night. We made you a  
beak out of paper this morning for  
identities but we can't send them. They  
looked like this

Sincerely,  
James

Dear Papa -

Johnnie and Millie and Ruth came to supper last night.

I love Sammie and Chard. I can guide down hill. Sammie starts me. I sit in the wagon and hold the handle and go awfully fast.

I play with Ruf Bigger and Ruf Reiner, too. Maybe Ruth Reiner will see you soon in our dear California.

I have some shoes. Thank you for the toys. We take our Tommy tinkers to bed and we take turns with Whirly Tinker. Lovingly,  
Howard.

Dear Jamie:

A new year's greeting from  
Pittsburg where Charles and I have  
spent the time since Saturday morning  
as I suddenly was invited to speak  
morning and evening in the 3rd Presbyt.  
Church here and left N.Y. Friday night  
to do so. It is a great church and  
we were mighty glad to get access to its people.  
Today spoke to Shady Side Academy boys and  
to ministers meeting in Carnegie  
Saturday we had a great time in Carnegie  
Institute and saw the finest kind of exhibits.  
Charles learned a lot and visited for you  
more with us.  
We were mighty glad to get your postal in N.Y.  
from New York I had sent to you a fine pair

I shall be glad to hear from you as to this  
term's arrangement. all the details of your  
daily life interest me greatly. keep your accounts  
this term.

Write again from Madison -

Dear Jamie:

On my way to Columbus Ohio has stopped off here. Find Aunt Susie & her very much better and we did a lot of shopping yesterday buying things for Mother - a suit, skirt, sweater, blouse, program dresses, apron, night gowns, underwear - a whole lot of new and pretty things for her Christmas - greatly delayed. Also a couple photos. She will have a great time with so many Parcel Post packages coming. Aunt Susie told me to tell you how greatly pleased and interested she was to hear of the good report of your work last term. It did us all good - my boy - and I am sure you are glad - after fearing for me and doing very well. Keep it up. Be sure to write me each week. Watch the stamps on my letters - I got some of the "Belgia" ones here and will use them for a while. Leave here for Columbus this afternoon. Let me know when Parcel Post packages reach you - shoes, sweater, walrus. Love from all yours  
Father.

Dear James:

I was made glad an hour  
or two ago when receiving your good long  
letter which I so greatly enjoyed.

I will be sure to return you the report  
blankets after I have had time to look them  
over more carefully.

Am so glad you feel in good physical trim  
now that your hospital experience is over.  
I was afraid you might be sick after that  
hard trip back on top of your late hours  
and strenuous sight seeing in New York.

Glad to hear you received your hat back  
and like shoes and sweater. Color of latter  
is a little conspicuous but it is a good  
one.

I have every confidence in your teachers and  
their judgment, as to what is best in your  
studies - just keep at it. You will make up  
what you are behind in and will come  
out all right. It did me lots of good

to have you get E in your studies and  
I fully sympathize with you in your  
mark M in English. Didn't I have  
a time of it all through my course in  
writing themes & and in speaking - and  
yet you can an idea that your "old  
dad" can write and speak and teach  
now.

I thought there would be some  
to and I have hardly ever risen to  
speak without being scared half out of  
my wits and I fight half nearly anything  
that is in mind - until after I get under  
way. Just keep at it - I get up anyhow -  
and speak as well as you can and  
little by little you will get control of  
yourself. Take a few long deep breaths always  
before rising to speak.

She yesterday to Business Men's Club at 7 o'clock, for  
5 minutes to Chamber of Commerce here - tonight  
to Men's Central Church and Sunday School -  
then go on to see Swallow at Worcester.  
This is just a line to say "hello" once more  
and to tell you how glad I am to get your letters.  
Love later -

Dear Jennie: Had a good day here yesterday  
day speaking in First Ch. and Methodist  
Hwy. Ch., and am just now at Cousin  
Mary's. Leave this afternoon for Madison to  
celebrate my birthday, (25<sup>th</sup>) there tomorrow.

(~~was~~ birthday, but Jan, 25<sup>th</sup>)  
This morning I got a suit of clothes  
for you and have had it sent by Parcel Post.  
It should reach you on Wednesday & think and  
I should like you to answer at once when it  
reaches for I should like to know it has  
reached you. before I start for California on  
Friday. The suit cost \$30.<sup>00</sup> and I wish  
you would compare it with the one we

I leave for Calif on Friday, 2nd Inst, in Kansas City  
and go on to La Rafael before its next Sunday.  
After your next letter - send all mail to me at San-  
Rafael 614 Fifth St. until end of February.  
Guess you'll have to count this suit a sort of a  
Birthday present sent a little in advance.  
Charles has passed into 7a and did better the  
last part of the term - getting one 1 three 2, three  
3 and three 4 grades. He got 2 in Department  
this time. It has been steady improvement but he ought  
to and can do better still. I am not satisfied to have  
get as low as 4 in anything. Writing, Grammar  
and Language were his lowest grades.

Dear Mary Anne - I received your letter which was  
very kind and interesting. I am glad to hear  
of your success in your studies. I shall be  
interested to hear from you again. I shall  
write to you again soon. I am  
well and hope these few lines  
will find you the same. I  
am your affectionate

I have been obliged to go some distance  
from the town - with the intention  
of visiting I think of the one place or another  
in the neighborhood of the other building & think  
I will be able to do so.

I have been thinking of writing you  
for some time but have been so busy  
that I could not find time to do so.

I shall tomorrow afternoon go to the  
place you mention - had for  
some time been thinking of doing so.

With reference to your description of the  
foot I send to you for a washing of  
the same to be made with little iodine solution  
with the intention of producing on any part of  
the skin an abrasion of the skin you mean  
has to do with the least any impression from  
the water of the foot. From  
my experience with skin diseases  
in that kind of case contact a certain  
degree from the water in the bath of the

to see the error. By the "3rd time" you see the  
yesterday, under the "3rd time" under "3rd time" the  
Census and it had a few corrections together.  
As for finishing your work there - 22 - all well and good  
if you can do it out & see what you can do when you wish  
then as I am to have you by the 1st of January, I shall  
send you the working plan for study.  
You mean to take it all your own time. You can also  
advise us to take it sent for you to do. You can also  
give a more time if that is what you wish to do. You  
will be sure you finish sooner, and all then in 5  
days. I'll be sure you finish it. I shall be sure  
you, see to send me by the 1st of January, I shall be sure

Love the plans may take longer.  
You would rather try in the garden a  
little cotton and a little wool, I think  
is needed. You can learn to make or  
learn of having to cut it.

I'm interested in your work and so  
glad for one thing with it.

Will try to get the area between  
you & the house.

As for cars - look over the light ones  
very much - will then come either in  
the same way of the job every day  
of the 12th night have a car to go  
to work here to try to get some out  
with my car will be by 10 or 11  
and then to get a car.

I'll try to get a car for you.  
I'll try to get the new car  
and then I'll get the car to  
you - and will study a car later and  
will it be all right.

I'm sure there is a car for you.  
Thank you for the birth of the car.  
I'll try to get a car for you.

Want you in account my paper on and

Dear Jennie:

Here we are at Grandma's again and yesterday celebrated Charles' 13<sup>th</sup> birthday - the fourth one he has spent in this home here in  
It is long since I heard from you and I have not written anything but postals for some time. How very busy I have been this last month!

I had a good time at General Assembly - after I got there - was late because of the hospital operation. Saw D. McCune, the Smalls, Dr. Clark - Herbert Blair, McFarland and Regis all from Iowa.

Had a successful Campaign and secured promise of \$4000. - more for the College. I go back greatly encouraged. -  
We had the finest kind of a time on the hilltop with Uncle Will. Uncle Tom there for a week. The auto trip to Kentucky was simply great. Sunday night the 5<sup>th</sup> yet the

at home to the Church Association  
in connection with the Commencement exercises  
and had a fine audience. Under Wood's  
went down to Charles.  
Tuesday the 7<sup>th</sup> Charles & I started for home  
and after a hot and dusty and tiresome  
journey arrived here Saturday the 11<sup>th</sup> in  
afternoon. Grandma seems quite well and  
was glad to see us.

Yesterday we heard Capt. Johnson at  
Presby. Church - a fine strong address  
on the Prohibition question and the work of the  
Anti-Saloon League. It was meant for you  
and yet a chord to hear him - as by all  
means. As he told of the awful effects on  
men and upon their children of the use  
of alcoholic drinks and the evils which follow it  
we were even more thankful than ever  
that we have been kept free from such  
evils. Hold to the high standards  
all through life my boy and keep a  
clean true life. What a factor it is in  
the happiness of one and all ones dear ones.  
It is such a cause of regret to us all  
that Aunt Annie will have the cigarette  
habit. It is injuring her so much and

he is not doing so well in his studies  
nor is he keeping so well physically - while  
he admits now that he has such a strong  
hold on him that he is not willing to give  
it up. Don't talk to Aunt Susie about  
it - for it hurts her so - but wish he  
for all that he may seek grace to give  
it up.

When we left Madison Charles gave us a bicycle  
to John - which pleased him greatly and will  
help him in his loneliness after Charles  
departure.

We will be here now until 22<sup>nd</sup>. Yesterday  
we saw Mr. W. Aldrop at the dinner  
with him at San Francisco.

Letters from Mother say all are well and they are  
looking now for us to return. The Benbent's sail  
July 25<sup>th</sup> - the Shanks leave this week June 5<sup>th</sup>.

Direct your next letter after this is received  
to me at Yonkers - it takes 5¢ postage remember  
write very well - I shall be so eager  
all the time to hear from you and it will  
be so long before the first letter reaches me  
after we leave here.

I was so busy that I forgot your request  
for a Paul Post Package and wrote up when I

looked up your letter. Am ever so sorry for  
I had fully expected to send one for the 8<sup>th</sup> &  
that is just one more of the many things I  
wanted to do which have left undone.

How my boy - You have gotten a good start  
are fairly well supplied with clothes & and  
from now on you will have to supply yourself.  
Make sure that you plan ahead of time for  
what you need. Feel free to buy whatever  
you need and get good quality goods. I am  
sure you will not be extravagant - and I want  
you always to make sure of things well - when  
in a shop or a Cavalry way. Keep in touch  
with Uncle Tom and ask his advice when  
you need to. Just count him your "little

father")  $2\frac{1}{2}$  of 4-2, as the man says.  
We will be glad to help at any time.  
Make sure of keeping in touch with him for  
the summer and go to Dr Whipple there  
for the operation on your neck. Don't forget  
this - and be sure to plan for it in advance.  
Write Uncle Tom in advance and have him make  
arrangement through the Board and Dr Whipple  
for you to be in Wash. Hospital at the time.  
Uncle Tom will expect you there after  
you get through in New York and you

Can ~~you~~ you have a rest and vacation this  
summer - and just as good a time as for  
Can have - on the hill top.

If Mrs. Stewart should ask you to stay  
a few days at Green Hill - all will  
good - It will be a good experience  
you will enjoy it.

Write me very, very freely about anything and  
especially about any puzzling questions which  
come up and if anything goes wrong tell  
me all about it.

Due mail this - you must arrange somehow  
to write to Grandma once in every three  
months at least - that is not a hard  
task and for our sake to your own  
dear mother to keep in touch with each  
and for her a little share in our life.  
my blessing be with you and the Lord keep  
and guide you in all things.

Mrs. Sharrcks wrote me of my son's  
your former room-mate - love for many  
with her best wishes.  
Love from Grandma, Charles &  
Father.

(OVER)

Am sending a Parcel Post package  
to Dwight's Home - thinking it  
may possibly reach there in time

you get it - you can use it all right

June 21, 1921

Dear Jimmie:  
Two good letters from you  
just before we got away and it is good  
to hear them.

Now about your studies and time of grad-  
uation - I want you to do just what  
seems best after you talk it all over

with Mr Yeager and then his advice.  
It will not disappoint me if you do  
not finish in 1922 - provided you do good

faithful work. I am not over anxious  
for honors - even though I have been  
greatly gratified that you received them - but

I am eager to hear you work faithfully  
and hard enough to require some effort  
on your part. I don't expect you to

shirk or to be lazy. I want you to get  
the most good out of your education and  
lay good foundations and if good grades

result so much the better - but it is  
more important that you get the education  
right than that you get honors.

Now talk it all over with Mr Yeager - tell  
him just what you think and feel and decide

and ask him what he thinks is best for you

Of course one advantage in finishing  
in 1922 is that you need not College  
that fall - while if you had to take  
another term in order to finish - you  
will have to wait until the fall of  
1923 to enter College.

Now if you can arrange to take some  
extra studies - and especially if you can  
begin Greek by waiting until 1923 a  
graduate - that may be a great advantage.

July 23 1921

Dear Annie, The wind early in 5 a.m.  
July 14<sup>th</sup> at home and board all well  
except your hair was brown  
with rippled grey - a light case my said.  
My book it was not to see Mother  
James Howard and all the Pappagato.  
The dreams began to come in on me of  
course - I believe visits you and  
I understand that you are in Sorai  
just came right on here the Wednesday  
after our arrival here 20<sup>th</sup>.  
The annex to Gwinty - Mr. McArthur had  
Mrs. Bell here and a brick building  
at his house - she and all pig - I  
the school has a new big brick building on  
there - we report Mr. Wells' school just  
relative to call.  
Find my do and Choi Si at our house  
and my do was come with us a Sorai  
The school is here, Tuesday for America  
but the two Charles had five boys together.  
The said has a little daughter 2 1/2 yrs old  
and the other - a girl, new little one.

You in the midst of a good summer vacation. You will  
feel somewhat lost without us but cheer up - you  
can be so thankful to have Uncle Howard Black & son  
and Aunt Susie in America - when so many boys were  
left without any near relatives.

This letter too will make for home side for Uncle and for  
all the good times here - but you will be having your  
own good times there and many new experiences.

All but I have just been down for a swim and as I write  
I can well see to look down and watch them - having such

a good time. This certainly is one of the most beautiful  
beaches to be found anywhere. Fresh seaweed with less  
beautiful Cerise bathing suit might be on this fine white

beach. One of the girls here looks swell indeed in a turquoise  
blue suit. but most of them are rather plain in color.

The Concord looks very fine in  
clumps except large shrubbery. Lots of  
apples to be seen and some already  
coming in from the farm.  
We had a fine trip to Inai - leaving  
27. in a howling rain but getting  
on steam at Chinwato at 3 PM with  
no rain - a fine smooth voyage without  
rain - A beautiful sunset & fine full  
moon and safe arrival. I will Tuesday  
morning.

There are lots of people here but  
hard to do much for you. 38 miles  
on the beach last night for a claim  
border sister and now the children  
do enjoy everything. Charles & Ned Whit-  
comb and several others are the big boys  
with a lot of others about 10 to 12 years old.  
I write this & suppose just as you  
are closing your letters work. I shall  
be eager to hear how you feel after  
this whole year of work. Will send  
this to Madison and hope it reaches

We expect to stay here until about 20<sup>th</sup> of August  
and then go back to W to work again.  
Lots of love from all of us to all the dear ones on the  
island. All will love the leather trunk which bound  
with its contents thanks to the good strong rope which bound  
it but the threads so much add it will be too old to hold  
together and it will never return to America. It has had  
a good ocean voyage anyhow which few trunks of its age  
can ever say.

How I wish you + Elizabeth + Leonard might be on this vessel  
during August. What a good time for work here.

Shall expect your letters from time to time.  
Lots of love from all of us.  
Loving  
Father.

Tell Uncle  
Howard to be sure &  
to send the \$2500  
asked for in my letter from  
Calif. or the steamer.

Dear Jennie: Just how I have let  
the days go by without writing you  
I do not know except that we have  
all been so lazy and sleeping so much  
since arriving here that we have not  
realized that the time has passed so  
rapidly. We talk of you every day and  
in prayer each day you are always  
mentioned by name. How we do miss you  
and wish you could be here with us to  
enjoy the bathing, the fun and all that goes  
with a summer at Sorai. Wish we could  
just what you are doing and how this  
summer vacation is spent.  
We had a good steamer passage from Chinnampo  
but others have not fared so  
well a party from Chinnampo just before  
I starting the worst voyage of any group  
yet and barely getting ashore here without  
their baggage which had to go on to Chinnampo

Morony + C.D. Morris built houses last summer and the  
Widdcrafts built an addition to their ~~house~~ book house and I bought  
a half interest in it - so we are occupying it now.  
E. H. Miller + Miss Tate will put in foundations for new houses  
and build next summer. Charles goes in for his tria S. this  
week and next week takes part in the swimming contest  
around the point.

One night we had a Clam Chucker picnic on the beach - 138 people  
there and it was fine. Miss Stevens of Cheumbe has a motor boat  
and takes parties of ten or more to Myplewin's Island every few days.  
The children have grown. Elizabeth Koons, Marion Morris and  
Charlotte Morris are the big girls - almost young ladies and now  
they can swim.

They tell us that next year the railroad will come to Munguen to  
just 60 li from here. It runs from Saiyuan - so  
next year we shall all probably come by rail and make the

and come back with us. The ~~Swamp~~  
jumped up & down so with the waves  
that the people had to jump from the steps  
into the swamp as the rose with the waves.  
The men & women are enjoying it so in the  
evening on the sand. You immediately know  
how to do such a big strong lively talk  
for boy - full of fun and dashes into  
the water as brave as can be.

Charles and Whitman, Edward Anson, Willie  
the man from China and Sir. Edwin are the  
big boys and what with swimming, tennis,  
parties and the weekly "stunts" are having  
a great time. Last Friday night we had  
a Circus (a real one) which was a tremendous  
success. Buren made a Capital clown - Harrell  
Buren & Barbara know dancing bear & floor  
game Liceman with all the budgets & comed

make it and a saw for a crowd.  
This Friday we had a minstrel show and  
mother is on the committee - as they have  
dropped me again for this one and plan to  
be interlocutor dressed up as "Uncle Sam."

The beach is certainly fine and everybody bathes  
of course. We have had considerable wind  
one night a regular typhoon - and just now  
a very high tide - sweeping over the entire beach.

last 20 miles in autos or walk it if necessary.

I can't find for much Pyrengey news. The corner of the Iron-  
is being built. There will be only George Adams + Charlotte Morris  
in High School this year I believe. Edith + Nan Buer both  
went to France this summer. By the way the Buer want very  
much to have Nan set in on your Grand Robin. That is a fine  
thing and I do hope for all week it if for years to come.  
Eugene Blair has been quite sick but is better now but they have  
been kept from coming to Spai by it. The Bairds have a little  
daughter a little over a month old and so they stayed in P.Y.  
this summer.

A year makes a great difference and the P.Y. Community is almost changed.  
Miss Bergman, the Allans, Supts, Miss Boyer - Biggers, some new neighbors,  
four I believe - all make quite a new Community.  
Charles has just come in saying he has fish had a "hot game" of tennis.  
He is enjoying it. Love from us all. Will write again in a few days.

Dear Jennie. Have been home again for  
four days - leaving mother and the  
children to Srai for another week.  
This is a great Cornland of ours and  
I have enjoyed going in it seeing the  
changes - how much some of the shrubby  
has grown. Apple trees are full and the  
grape vines are loaded. I wish you could  
see and hear the owls. There are a  
number of them - beautiful birds and how  
I do enjoy their sweet notes.  
There are many changes in P.Y. - our  
Community has so many new people - that  
it does not seem like the same place.  
Buildings are going up all around us.  
Mr McMeekin's new one story brick house  
is ready for roof. It is just below the  
Foreign School building. The fine new  
annex to the Dormitory is almost finished.  
It joins right on to the other - making one  
long house - meaning back to where the  
bath from the Gillis house ran past the  
reared to the well and gate up on top  
from which we overlooked the P.Y. valley.

new school building red bricks just beyond the road which runs  
around the old city wall site one to their Church and Morris house.  
The city is growing rapidly and houses are everywhere - a whole  
string of them along the road from our corner to Nicholas green  
making a large village there - and there we have a fine chapel - the  
one that was planned for "Signill".

This week Academy opens and next week the College. The Brains are  
if the road yet - Edgar much better having been sick a long  
time with typhoid fever. Miss Goriss was fitted up Mr. McQuarrie  
old man and it looks fine. He seems well settled in it.  
We have a teacher yet but Miss Lloyd - sister of Mrs. Hunt  
who came out - trying to stay a year with them - is coming up to  
help out so I guess all will go well. Capt. Potter our  
new man is from Aberdeen - Bd. of Managers. A fine man he is  
and capable with experience.

It is now a fine building large and  
comfortable with room for about 25 children  
and more on a bench.

Then Miss Best & Mrs. Smith new brick  
house is nearing completion. Two story and  
an attic - well built and roomy. It stands  
way of overlooking everything.

Mrs. Snow has her new Domestic Science  
Building - red-brick nearly finished and  
is making plans for the large Recitation Bldg.  
which goes up next year.

Mr. Vogel has the cellar dug for his house  
on the Seminary hill on the point just  
in front of the D. Pies. cottage where Mr.  
Parker was born and which has been  
made into a brick house. The order of the day  
red brick houses and which has been  
now and they change the appearance very  
greatly. We expect to put up the new  
Seminary Bldg next Spring and the 5th Church  
will build there also on the site where  
I tried so long to get - the wall site where  
you remember the Johnson Hotel stood during  
the "Man Syc" excitement of 2 years ago.  
I can not see down town yet to see  
the Negro there. The Methodists have a large

I don't do miss you. Every thing here makes me think of you  
and it seems as though you ought to be running in with  
some request or some question at any minute. I shall be  
glad when Charles and the others all get home. Charles went  
to Haigo to spend a week with Henry Norton. He should be  
home next Saturday.

I am eager to hear from you. What a world yet since seeing you.  
I look for an American mail any day now.  
You sorry to hear Albert has broken down again. He tells  
with become disconcerted.

You Pychang has just come in and wants to be remembered  
to you. He says he was delighted to see Charles. Kyle Ho is allowed  
out of prison and in College again. Pyem Nyangi is still in prison but  
will tell her another report.

I hope you get the habit of writing me once every week for a long  
to hear from you. With lots of love - as ever  
Father.

Sept. 19, 192.

Dear Jennie,

I am becoming really concerned over not hearing from you. What is the matter. I have not had a letter since reaching here and your last letter received was written early in June and reached me in San Rafael. I do not know how to account for it. I did think irregular mail was responsible but even mails are not so long delayed as this. I hope when you received my letter sent to New York - then to Madison and the Post or again to Mt. Vernon. We had a good time at Loran Beach and have been busy. College & Academy then opened well and we have nearly 700 students all told. Foreign School is running with Miss Lloyd Mrs Hunt's sister who came out last spring, acting as assistant teacher until a new teacher comes. They are expecting Dr. Fort's daughter Jean who graduated in Nova Scotia last year - to come as the new teacher. How long before you want to try a couple of years as teacher in the Foreign School? The annex to the Dormitory is finished and was then a fine large building now. We have gotten a fine lot of grapes from the farm and can do with

I hope you - besides giving away about a dozen boxes of  
boxes to them. Apples too are now coming from the farm  
fine ones while the trees at our house are well loaded this  
year.

Look out for the stamps on his letter. Miss Charters got a  
few of them - he says they were on sale but could not get  
any, and 4 sets ones at that Post Office and by word all  
others were gone from the big Post Office also. Charles fortunately  
was able to buy 2 each of 1 and 4 sets ones at Halifax by  
going early in morning and waiting in line for P.O. to open. Will  
keep one each for your collection.

I have a letter from our German giving you grades and  
as realize that you are finding Latin + English really hard.  
Nevertheless - keep at them - to the best you can and  
never get discouraged because grades are not what you  
needed they would be. Faithful work is what I want - not  
necessarily high grades though of course the more of them you  
get the better. You need to give more time to trying to  
improve in Latin and English.  
Charles is lost in Arithmetic - largely I think from carelessness and  
lack of effort. Mother has seen teaching Arithmetic in the Foreign School  
for two weeks and now Mrs. Altam takes it up.  
Let me know soon what the result of Conference with you  
at Inver (Cochran) is as to your progress to finish in 1922 a  
taking another year or two.  
We all join in lots of love - missing you so much.  
Wonder what you will plan for this next Christmas vacation. What  
fun we had last year.  
Love  
Father.

Sept. 26, 1921

Dear Jamie: Here goes my weekly letter to you although I have had no word from you in more than 3 months. Hope the next mail brings me half a dozen letters which for some reason have been delayed. We are having a good deal of rain and very chilly weather just now which is far from agreeable but looks for clear bright sunshiny weather soon.

Charles seems pretty busy and is finishing various kinds of work but on him. He + George have been soliciting contributions for Base ball outfit of gloves bats etc and he is treasurer. He is also Secy of Assoc of Christian Endeavor - is called on to lead also to sing in special music etc. He doesn't seem to find time for much work on clothing down trees and such like work - but makes his wife look after his one legged legions and plays a good deal. In many respects however I think he is doing better.

Foreign School seems to be doing well. George, Ned and Charles are the big boys.

They seem opened Saturday and I begin my classes today. What with Sean, Colby + Academy I have my hands full although Mr Roberts as Dean of Sem. has relieved me of much routine work. Sean well having lots of green tinners - including me over and enjoys a good green meal. It takes up much time however and I am glad to think that they are over.

Jamie + Howard are having great good times with their "scouts" which I sent them from Los Angeles and the neighborhood children enjoy them also. We are beginning to think of Christmas

and this will be the great Christmas for & then not  
see together. Wonder what for want this year. Better write  
at once and let me know if I am to plan to reach  
you on Christmas eve with my gift. Where will you  
be?

Wish you would drop a letter to Mr Mrs Holdcroft at  
Hobart Delaware Co. N.Y. and tell them to look in to  
see for if they get anywhere near Int. Harbor - which is quite  
possible. They will be in America until next Summer.  
Dr Mrs Ross has a Cuba message regarding Albert's health  
which calls them home and they plan to leave soon. Too  
bad isn't it?

Wonder if you ever got a couple of Green Lemons from  
Hawaii - I arranged them for two to be sent you but as  
one was sent me here I am wondering whether any will sent  
to you. Thought you might like to send one to Katherine  
Blair & to Bruce Hunt - or anyone you wish. Am  
sure they would appreciate it.  
Last word I had from Uncle Harold was that Elizabeth was  
about well - after the operation for appendicitis.  
Mr Buckley has been plunged into Green work and now  
is all out of touch with conditions in Madison etc.  
We are all dead well - and all seems to go well in  
the main - but I do miss you dreadfully and long for  
word from you.  
With lots of love from all yours -  
as ever

Oct. 17, 1921. Dear Jamie,  
Perhaps you will be glad to  
know that I am thinking  
of you Sunday. Your grand-  
mother had me out after ch.  
Oct 2. + brought me home. She  
had changed her dress + was  
sitting on the front porch near  
the blue flower in the shade  
where she had her stroke yet  
in her chair. She got up + called  
for help + got to her bed before  
she lost consciousness. She did  
not fully regain" again, but knew  
people. It was a beautiful way  
for her to die, as pain + only  
semi-conscious. Mrs Thomasish  
was at the funeral. Mrs Judge Cut-  
ler + her daughter, Emma + Aige  
reached there Sat. A.M. before she  
breathed her last. Dr White made  
a beautiful address about her. There  
were many friends at the funeral  
to singing. Dr. Thompson had the  
first part of the service + then  
Dr White. It was beautiful + all re-  
marks bore the influence of her.

EVENING WORSHIP

Theme of sermon by the Pastor:

"Enthusiasm for a Cause"

The service at the County Farm this afternoon will be in care of Group 9, Mrs. DuBois, group leader.

Mrs. Charles H. Fish who, on Sunday, October 2, suffered a stroke of paralysis, and Mr. Charles F. Kirby, who has been desperately ill since June, are both very low. Let us remember in prayer the sinking sufferers.

The Session has engaged Mr. Francis L. Bouquet as Superintendent of the Sunday School. Mr. Bouquet is a member of the junior class in the Theological Seminary. We are sure that he will render a great service as leader in this integral and vital part of the church's work. Our people will welcome him to their homes and hearts.

The Christian Endeavorers and their friends will enjoy a social in the church parlors on Friday evening, October 21. All young people of the church are invited.

The subject of the mid-week meeting, Thursday, 7:45 o'clock, will be, "The Nobility of Persistence in Unnoticed Work." Read the story of the work of Philip: Deacon and Evangelist. Acts 8:5,26,40.

**AT PRAYER MEETING**

There were only two or three of us  
Who came to the place of prayer—  
Came in the teeth of a driving storm;  
But for that we did not care,  
Since after our hymns or prayer had risen  
And our earnest prayers were said,  
The Master himself was present there,  
And gave us the living bread.

We knew his look on our leader's face,  
So rapt and glad and free;  
We felt this touch when our heads were bowed  
We heard his "Come to me."  
Nobody saw him lift the latch,  
And none unbarred the door;  
But "peace" was his token to every heart,  
And how could we ask for more?

And forth we fared in the bitter rain,  
And our hearts had grown so warm  
It seemed like the pelting of summer flowers,  
And not the crash of a storm;  
"Twas a time of the dearest privilege  
Of the Lord's right hand," we said,  
As we thought how Jesus himself had come  
To feed us with living bread.

Dear Jennie: Doubtless you heard at once of Grandma's death as I suppose Cousin Emma would write you. The Cablegram came to me as a great surprise and has necessitated quick changes in my plans. I cannot write at length now but want to let you know at once that Mother & I with Jimmy & Grand plan to leave for America as soon as we can get passage on the steamer - and will expect to see you in San Rafael by Dec. 21 at latest. We will plan to stay about 2 months or so hoping to be back here March 21. Do not know what plans in America will be but of course I shall plan to see you somewhere - probably in Madison or New York. I am greatly disappointed that I have had no letter at all from you all these months and so do not know anything of your plans or even where you are at present. You are in Mt. Vernon. As soon as we know date of sailing I will cable to California and I suppose the news will reach you before too long. I am sure you will write for again also as soon as Charles will stay here in the country. I am so grateful for all the visit with Grandma last year. She supported me but had a great faith in Christ which sustained her. Write me in San Rafael as soon as you receive this. Lovingly, Father.

Pyeongyang, Korea Oct. 22, 1921.

Dear Jamie:

It was a great relief to get the first news from you today - your postal to Sammie & Howard forwarded Oct. 19. I am hoping that letters will soon come. I cabled today to Dr. Landon of San Francisco saying "Sailing Elenath" which means we sail from Yokohama on the Taiyo Maru on November 11<sup>th</sup> arriving San Francisco about Nov 30<sup>th</sup> or Dec 1<sup>st</sup> I judge. I want to find letter from you there so I can make arrangements for meeting you when I go east. I am enclosing some stamps which you left here when you left and which turned up here a few days ago - also some I sent received from a young fellow in New Zealand to whom I sent a lot of Korean stamps. I have any of these and one extra for you. If you find you already have any of those back to me & help for Sammie & Howard or for Charles if he has not them. We have received many of these and a few which you do not. Wonder if you can take time to fix your stamps and get them in order.

Word from Cousin Clinton tells of the arrival of a little girl in their home. That is fine indeed. Our apples are just about all in and we certainly have a fine lot of them - cellar full - you room half full - great house work room full. They are the finest we have ever had and certainly are good. We like our new ones - King David, Delicious, northern Sky etc. Charles is a good deal of a fraud along some lines and is not working very hard in school. He says he is working hard in school. It is cutting down the million bill. Love's Father.

THE UNIVERSITY CLUB  
PITTSBURGH, PA.

July 3 1921

Dear T.C. We had a good time here  
Saturday afternoon spending several hours  
in the Carnegie Institute where we  
saw many things of interest - the exhibits  
of Animals & Birds & Skeletons of ancient animals  
of various kinds. Indian exhibits here.  
It is a very large one indeed.  
Sunday had a good day speaking to Sunday  
School and in Church morning.  
Was sorry to find both Mrs. Law & Mr. Harrison  
out of town.  
Friday night  
boys and to  
few minutes  
for minutes  
little tea in eight o'clock.  
Shady Side Academy to a hundred  
Presbyterian for women - come for a  
minutes meeting for a  
Charles it also further -  
in eight o'clock.

Please look up the "Weekly Review" for Jan, 5 and  
read the Critique on Barrie's "Mary Rose" as  
blamed by Ruth Chatterton. You will find it of great  
interest. I am sure.

Chas. refers frequently to the great pleasure he had in  
that basket from Mrs. Stuart. He did have such  
a good time - but is eager now to get to Madison.

May the new year bring you many many blessings  
and fill your life with good things as you make  
your own life full in so many helpful ways to many  
others.

As ever your faithfully  
Dorothy Alcott.

There been very comfortably cared for  
here at Univ. Club.

We leave tonight at 8:25 and reach  
Madison Tuesday noon.

We certainly shall not forget the fine Christmas  
visit to New York City. It was fine of  
you to give the boys such a treat and  
I am more than glad to have had the  
visit with you. How many good times we  
have had together.

This morning some of the men including Mr.  
Ralph Harrison asked me to come to Pittsburg  
again saying they would arrange for me to  
speak to the Rotary Club & Chamber of Commerce  
on "America's Relation to the Orient"  
& then to do so.

Today I sent by parcel post a resolute for James  
which I found here. A good one at reduced  
rate \$1.50 or for \$12.00

The Church here gave me \$50.00 so I thought I  
would afford a good resolute for James.
